#GRUEN

Gruen has been engineering high-performance building solutions trusted across Europe and now expanding throughout the United States.

At the core of Gruen's innovation is one mission:

Drains Done Right.

We design and manufacture premium stainless steel drainage systems and installation solutions that bring together precision engineering, clean design, and real-world performance on the jobsite.

Our vertically integrated manufacturing combines advanced stainless steel fabrication with precision injection molding, allowing Gruen to deliver exceptional quality, fast innovation, and custom solutions for projects of any scale.

From linear drains and point drains to tileable systems and shower installation components, every product is built with contractors, designers, and builders in mind—engineered for reliability, efficiency, and seamless integration with modern installation methods.

Gruen systems are crafted from premium stainless steel and designed for long-term durability, clean aesthetics, and simple installation across residential, hospitality, and commercial environments.

Whether you're designing a custom project or specifying solutions for large-scale developments, Gruen delivers the engineering, flexibility, and craftsmanship to help you build with confidence.

Discover the next generation of drainage and installation solutions.

WallLine

GRUEN

Award-Winning Design, Effortless Drainage

WallLine isn't just a drain—it's a game-changer. Designed for bonded membranes, this site-sizable, cut-to-fit linear drain makes installation seamless while delivering sleek, modern aesthetics. Recognized with both the Good Design Award and IF Design Award, WallLine redefines performance and style in shower drainage.

Easy-to-cut Structure

WallLine comes in sizes ranging from 11 3/16" to 47 1/4" and can be cut to your exact specifications for a perfect fit.

- Designed for effortless customization and installation

Built-in drain body

Built-in drain body and adjustment flange bring durability and easy installation.

Easy Cleaning

WallLine's removable hair strainer catches debris and hair, making cleaning effortless and keeping your drain flowing smoothly.

End Piece

Adjustable end cap for easy cutting

Wall & Floor Adjustment Piece

Patented adjustment piece joins floor and wall tile seamlessly

LWB-V17		LW12-L31E1	LW12-L31E9	LW12-L47E1	LW12-L47E9

WallLine-Tileable - The fully concealed, field-cuttable wall drain engineered for seamless waterproofing integration. WallLine arrives factory-fitted with a flexible waterproofing membrane, making system integration fast, reliable, and code-ready. Its wall-recessed profile eliminates floor interruptions — giving designers and installers maximum creative freedom with a shower floor that's effortless to clean. WallLine's slim footprint makes it ideal for both new construction and retrofit renovations. Cleaner lines. Total confidence.

Field-Cuttable Design

Fully cuttable on the jobsite for a precise fit at any opening size — no special tools or factory orders required.

Waterproofing End Caps

After cutting to final length, purpose-engineered end caps seal cleanly and maintain membrane integrity at every termination point.

WallLine Body Kit

With the patented, adjustable eccentric flange for fine adjustment and the drain body that can be variably adapted to the tile thickness, installation is quick and easy.

Easy cleaning and perfect hygiene

WallLine's removable hair strainer catches debris and hair, making cleaning effortless and keeping your drain flowing smoothly.

Tileline - The innovative tileable linear drain engineered to disappear. Tileline's patented design allows any size tile to align perfectly over the drain body — delivering a flawless, continuous floor surface with zero visible drain after installation. The result is a clean, uninterrupted aesthetic that architects and designers demand, with the reliable waterproofing performance installers trust.

Field-Cuttable Design

Available in 48" lengths and cuttable to any size from 16" — giving installers precise fitment on every project without special orders or fabrication.

Easy Cleaning

Tileline's open watercourse and clear geometry create a natural self-cleaning effect. The hair and debris trap removes in seconds for quick, effortless maintenance.

Strength, Flexibility & Effortless Maintenance

Proline by Gruen Systems is engineered exclusively for bonded membrane installations, delivering a powerful combination of durability and functionality. Its innovative design features a removable cover for effortless cleaning, while Gruen's supplementary accessories enhance versatility for a seamless fit.

- Designed specifically for bonded membrane installations
- Removable cover for easy maintenance
- Built for demanding environments with robust performance

For professionals who demand strength, adaptability, and reliability, Proline is the ultimate drainage solution.

Gradual Height Adjustment

Thanks to the gradual height adjustment set patented by Gruen; no more alignment problems of height and elevation differences occur during installation.

Perforated Membrane

Middle part of the insulation textile is perforated because of preventing unwanted parts fall to the drain.

Point Drain Shower Pan

GRUEN

GOOD
DESIGN

Faster Installation, Effortless Results

This ready-made shower pan features a pre-formed slope, integrated membrane, and universal drain compatibility for quick, reliable installations.

Key Benefits:

Fast & Easy: Three-step installation saves hours.

- Versatile Fit: Adapts to most drains and uneven floors.
- Customizable: Cut to size while maintaining a watertight seal.
- Professional Finish: Achieve a flawless shower floor every time.
